

# HOW TO MEASURE YOUR ROOM

- 1.** START WITH THE ROOMS OVERALL DIMENSIONS
- 2.** MEASURE ALL DOORS AND WINDOWS
- 3.** NOTE ANY SPECIAL FEATURES OR OTHER ITEMS WITHIN THE ROOM STRUCTURE

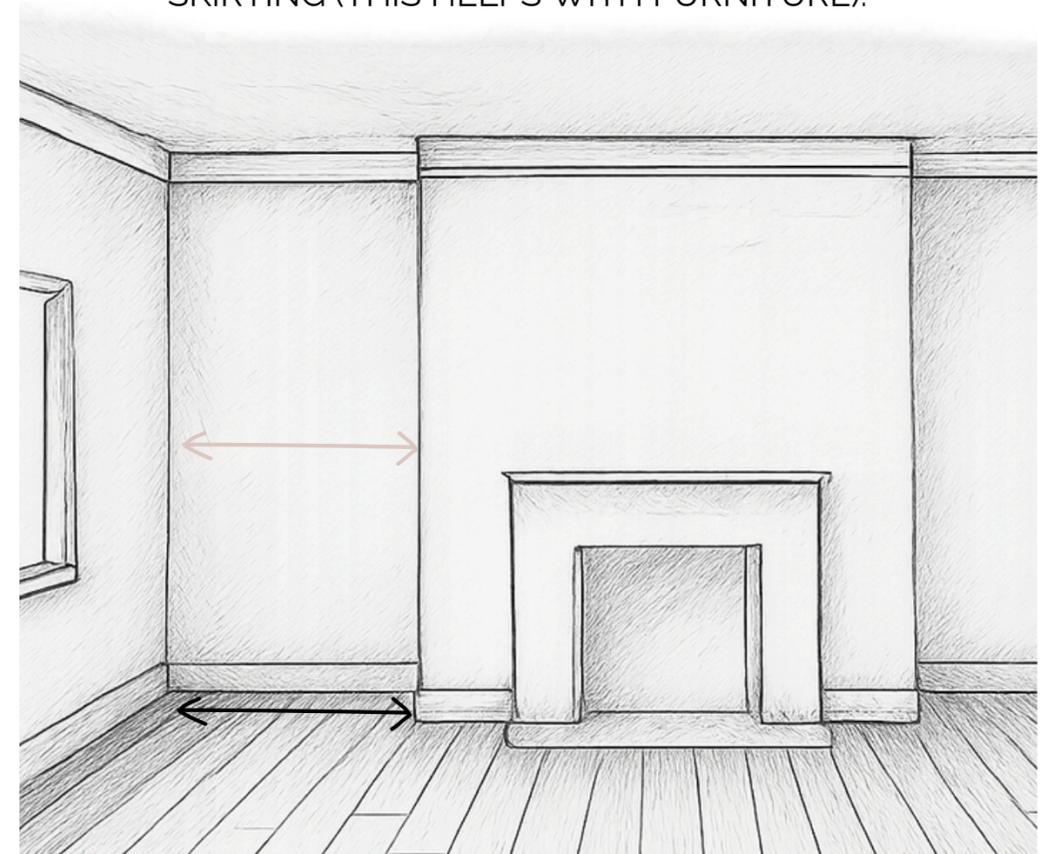

IF THE ROOM HAS WINDOWS MEASURE FROM THE EDGE OF THE WINDOW FRAME TO THE END OF THE WALL, THE CEILING AND FROM THE WINDOW SILL TO THE FLOOR

DONT FORGET TO INCLUDE WHERE DOORS ARE WITHIN YOUR ROOM. MEASURE FROM THE OUTER EDGE OF THE DOOR FRAME AND THE WALL EACH SIDE AND INCLUDE THE OPENING OF THE DOOR SIZE

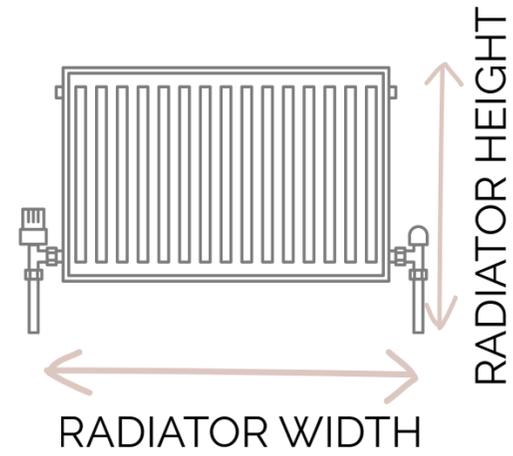

IF YOU HAVE ALCOVES PLEASE MEASURE THE WIDTH OF THE ALCOVE ON THE WALL AND ALSO BETWEEN THE SKIRTING (THIS HELPS WITH FURNITURE).

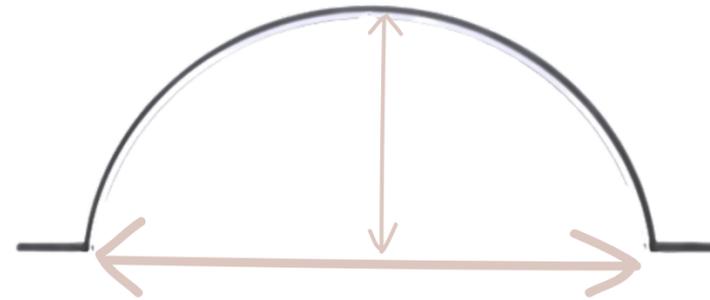

YOUR DRAWING CAN BE SUPER SIMPLE - IT DOESNT NEED TO BE ARTISTIC IT JUST NEEDS TO HAVE ALL THE MEASUREMENTS ON IT!

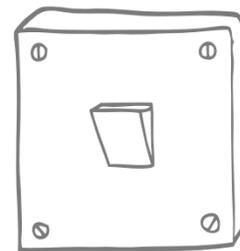

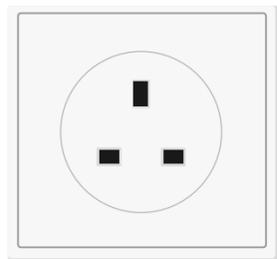

# OTHER ITEMS TO INCLUDE ON YOUR SKETCH

ROUND BAY WINDOW

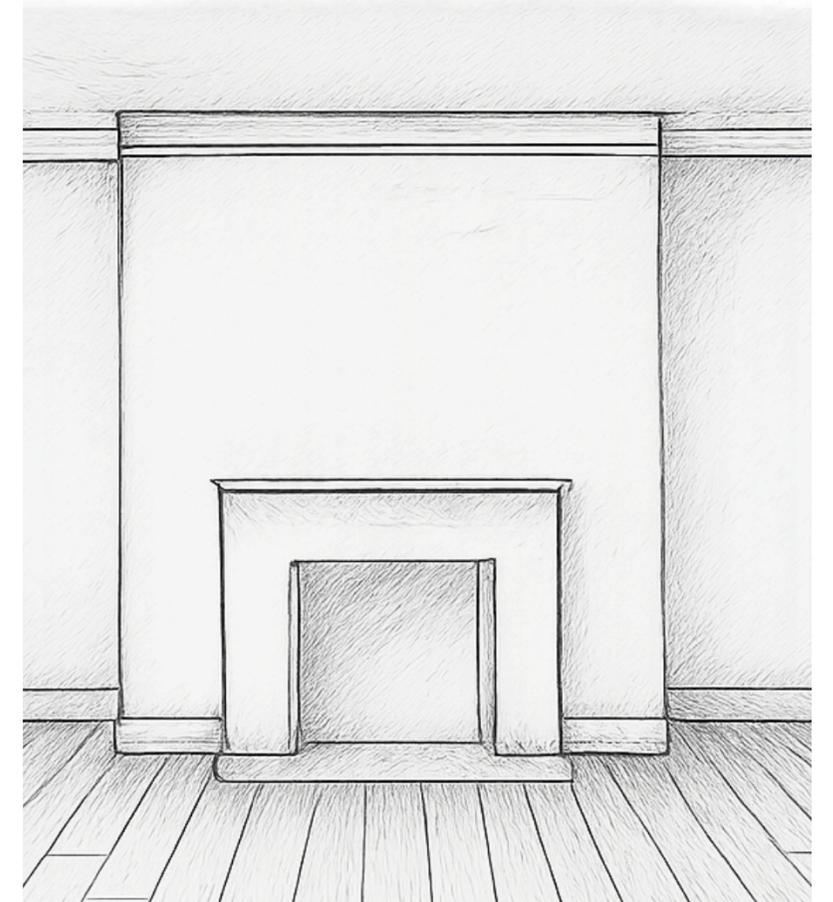

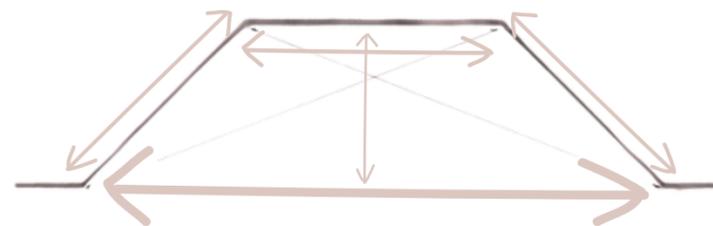

POP ON THE PLAN WHERE ELECTRICAL SOCKETS ARE IN THE ROOM

MAKE A NOTE OF WHERE SWITCHES ARE

BAY WINDOW

IF YOU HAVE A FIREPLACE PLEASE ADD THIS TO YOUR DRAWING AND POP ON THE WIDTH AND HEIGHT OF IT.
